## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1 and 3-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The limitations found in claims 1-8 are neither disclosed nor taught by the prior art of record, alone or in combination. The prior art of record does not disclose the limitations of the cooling gas channel defining an inner boundary of a gas-sealed region at a periphery of the ceramic disc, wherein said planar electrode extends beyond said cooling gas channel in combination with the other limitations recited in claims 1 and 7.

The limitations found in claims 9-14 are neither disclosed nor taught by the prior art of record, alone or in combination. The prior art of record does not disclose the limitations of a second planar electrode defined to be co-planar with the first planar electrode, the second planar electrode including portions defined between the linear portion and the C-shaped portions of the first planar electrode, the second planar electrode including an outer ring portion defined to encompass the linear portion and the C-shaped portions of the first planar electrode, wherein the first and second planar electrodes do not physically contact each other in combination with the other limitations recited in claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2831
